These **BALLET** Insulated needles are coated with a medical grade insulation. This special coating allows smooth insertions and stands up to the longest treatments. Best suited for clients with low pain thresholds. Excellent for flash and super-flash Thermolysis.

- Comfortable: Micropolished to ensure smooth insertion.
- Disposable: A single perfect needle for each treatment. Makes patients feel better and saves time with sterilization.
- Safe: The Ballet needle is created with a single piece of Stainless Steel. One-piece construction ensures no breakage or separation.
- Easy to Use: The needle's chambered head eases lading into holder, and the shaft's rifled surface allows a firm grip with a needle holder.
- Efficient: Current flows are smooth and even, surgeries are avoided due to the one piece construction, which eliminates crimps and uneven joints.

Needles & Probes

Precision Needles

Precision Pre-Sterilized Disposable Probes

Sterile Epilation Needles

Proven:

Used in clinics for over 10 years. Precision Sterile Disposable Needles are accepted world wide.

Consistently Perfect:

Your first Precision Needle will be identical to each new Precision Needle that you use.

Uniform Diameter:

The entire length of the needle, from the tip to the shank, is the same diameter.

Diamond Drawn Surgical Steel Wire:

The smoothest finish available assures you the most comfortable insertions.

Disposable:

A new, sterile probe for each client, assuring maximum safety for you clientele.

Truly Flexible:

Strong, Flexible Needles that let you feel your insertions. You make more accurate insertions and get better results.

Precision Telangiactasia Uni-Probe

The safest and most hygienic Electrolysis system available. The field of hair removal is constantly changing. Electrologists are having to contend with an increasing threat of infectious disease as well as a barrage of questionable technology that has been thrust upon the market. Because of this, we must be able to offer our clientele the utmost in electrolysis safety and technology. Uni-Probe provides both user and patient with the safest, most hygienic, and the most efficient electrolysis treatment there is.

Needle holder caps are a thing of the past thanks to Uni-Probe.

By eliminating the need for caps, Uni-Probe has all but eradicated the risk of contamination or accidental needle sticks. This is just one of the many revolutionary features Uni-Probe has to offer.

UP17 .008 Medium \$30.00 ea.

Phone: (281) 486-5617 Toll Free Phone: 1-800-626-6025

Uni-Probe Needles and Their Features

The electrolysis profession as we know it has completely changed with the introduction of **Uni-Probe**. Now, Precision Electrolysis Inc. brings you the safest, most efficient and user-friendly needles on the market.

Uni-Probe needles are pre-sterilized and disposable. In addition, their protective caps shield all client-contact areas. Never again will you need sterile tweezers or forceps to handle your probes. With the **Uni-Probe** system at work in your clinic you will immediately notice the numerous economical benefits.

1. With a price below \$20/50 needles, Uni-Probe costs less than most existing needles.
2. You will do away with the cost spent each year on all those needle-holder caps.
3. You eliminate the time spent changing caps between clients, as well as the time spent washing, rinsing, drying and sterilizing those caps. (all of this adds up to 2-3 hours a week that could be used for

Until **Uni-Probe** there has never been an easy way of knowing exactly what size probe you are looking at. Uni-Probe is manufactured in five distinctive colors, each denoting a different diameter (.002 - .006). Just look at the **Uni-Probe** needle in the package. White indicates that it is a .003 diameter needle, gray means it's .005. Unlike other needles, **Uni-Probe** cannot be autoclave or dry-heat sterilized. This assures your clientele the utmost in safety. The protective cap is removed just before treatment and replaced immediately after. Once the cap is replaced, you are protected from all client contaminated areas.

More information about Uni-Probe

For those who prefer air-flow, the **Uni-Probe** design incorporates twin channels, one on each side. these channels direct cooling air efficiently to the skin's surface (for use with Precision's Uni-Flow holder.)

Uni-Probe is a probe and cap in one. You will never have to buy caps again. Even better, you will never have to wash, rinse, dry, and sterilize caps again.

Uni-Probe totally eliminates the risk of needle-to-cap-to-client contamination associated with existing methods.

Have you ever bent a needle while loading it into your holder? You never will again, with **Uni-Probe**.

Uni-Probe is adaptable to virtually any epilator. Just unplug your obsolete needle-holder, plug in the Uni-Probe system, and welcome to the 21st Century.

Laurier Insulated Bulbous Two-Piece Probes

Description:

The Laurier Insulated Bulbous Probe is a two-piece probe. The stem is fifty thousandths in diameter by one-half inch long. This size is the industry standard, and will fit most push-in holders. It is made of brass and plated with gold for better conductivity. The blade is made of high quality 304 surgical stainless steel and is attached to the stem by means of a four-indent crimp which locks the two parts together permanently. The blade is ground to exacting taper for flexibility and strength while the tip is left larger and conical in shape. The blade is then highly polished to a mirror finish. Prior to shipping, all insulated probes are heat sterilized and packed on a protective plastic insert.

Straightens out bent tips on tweezers!

First, to take any nicks out and straighten the tweezers, place one side into the jaws and run it along the inside of the tweezers, repeating several times as necessary.

Second, realign the tweezers by closing them, placing them side ways in the jaws, and pulling the jaws along the length of the tweezers.

Note:

- Will rust when left in liquids
- Made of Carbon Steel

Arkansas Sharpening Stone

Great for touching-up of tweezer points. Natural Arkansas Stone has nicely finished surfaces for honing tweezers to original profile. Weighs only one ounce, measures 3 1/2" x 1/2" x 3/16"

Compublend Series 4

EP14A \$2,695.00

1. Press a key to select hair type, ranging from very fine to very coarse. The timing for your currents is automatically set; you are free to make adjustments if you wish.
2. Choose the mode: thermolysis, electrolysis or blend mode. Also includes anacataphoresis with polarity selection and autosense output control.
3. Set intensities - outputs are linear and fully regulated with only a 1% margin of error. The CBX will monitor intensity levels and settings to instantly compensate for consistent results.

*Includes: quartz control timing, Digital output display, session timer with alarm, instant UL computation, pedal free operation, regulated outputs, dual ratio blend modes, quick flash, thermopulse capability and much more.

LP36

RLLE-122
Standard version top arm is 17.5"
Max version top arm is 24"

The **RLLE-122** ring magnifier with a four or five diopter lens offers ideal traditional magnification. The permanent optical quality glass lens also accommodates a 12d bonded inset bubble on the 4d lens. Or for stronger magnification, a 4d add-x lens can be ordered for either the four or five diopter model. But the **RLLE-122** not only has powerful magnification, it also offers a standard 37" reach for traditional inspection applications, or a phenomenal 43.5" reach on our **RLLE Max**. An electronic ballast built into the arm provides flicker-free, energy efficient illumination. The 22-watt circline lamp on both models provides even distribution to the work surface and 12,000 hours of lamp life. A spring-loaded arm (with internal springs) contributes to the quality of light.

Standard Version top arm is 15.8"
Max version top arm is 21.5"

The **OMNIVUE** line of magnifiers offers two illumination levels to shed light on virtually any inspection application. Three 9-watt compact fluorescent lamps provide 1200 lumens of side-to-side lighting or 1800 lumens of light from the top and both sides of the magnifier, making the Omnivue ideal for situations in which illumination levels vary. The Omnivue line also makes it easy to direct the light with the standard 35" reach offered by the Omnivue or the extended 43" reach that you get with the OmnivueMax. Both the Omnivue and the OmnivueMax have an ergonomic head and ball joint design that allows users to position light exactly where it's needed and keep it there. The 3-diopter large stadium shaped lens provides precise positioning and eliminates unnecessary bending, and the three 9-watt compact fluorescent lamps are cool to touch and cause less eye fatigue. An industrial-grade lens cover that protects against dust and scratches is included with this magnifier.

Cleaners

Cleaners, Plugs, Caps, Corks

Autoclave & Instrument Cleaners

- SS18** Omni Cleaner Plus autoclave cleaning solution,
1 pint **\$11.89**
- SS18A** L & R AutoClean Autoclave Cleaner,
quart **\$17.50**
- IC2** Miltex instrument cleaner, liquid, concentrated,
8 oz. **\$6.95**
- IC3** Miltex Instrument cleaner, powder, removes
stain **\$6.95**
- IC6** Miltex Spray lubricants for instruments,
8 oz pump **\$8.19**
- IC5A** Antirust powder, for surgical instruments,
4 oz **\$8.50**
- IC4** Surgi-Stain the best for removing stains,
1 pint **\$13.30**
- IC8** Prem-Slip, 16oz bottle w/spray nozzle
Prevents rust, stains and spots **\$14.95**

Miltex Spray Lubricant is easy to use and extends the life of surgical instruments. The Non-silicone and anti-corrosive formula is steam permeable and non-greasy. Miltex Surgical Instrument Cleaner contains a neutral pH, phosphate-free formula, is biodegradable, and rinses clean with no residue.

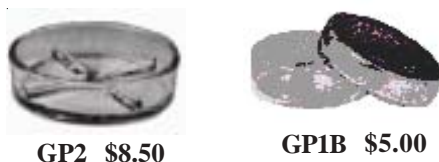

Glass Products (Dry Heat or Autoclave)

- GP1A** Wooden Rack, holds 6 bottles,
bottles sold separately **\$7.50**
- GP2** Petri Dish, four partition **\$8.50**

Petri dishes are good for sterilizing probes using both autoclave and hot air. They can withstand repeated wet or dry sterilization.

Plastic caps can be used in autoclaves only, they melt in oven heat. Corks can withstand both autoclave and oven sterilization.

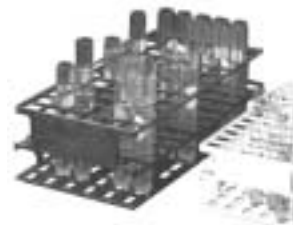

Plugs, Caps, Corks

- GP17** Plastic Caps **\$0.25**
- GP13** Rubber Plugs, autoclave only **\$0.25**
- GP15** Large Corks, test tubes DH, autoclave **\$0.30**
- GP15A** 100 pack corks **\$5.00**
- GP16** Small corks, mini DH & autoclave **\$0.30**

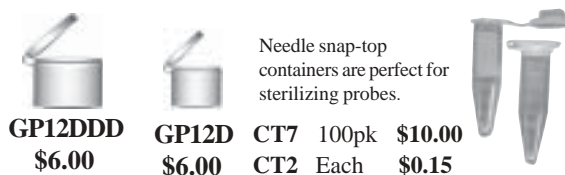

Test Tubes & Stands

- GP11** Test Tube, 5", large for tweezers **\$0.50**
- GP11AAA** Test Tube 6", large for tweezers **\$0.50**
Bulk price for 100 test tubes **\$45.00**
- GP12** Mini Test Tubes for probes,
100 count **\$25.00**
- GP12A** Mini test tubes, individual price **\$0.25**
- GP11A** Rack with 40 large test tubes (blue) **\$31.00**
- GP11B** Rack holds 36 tubes, made of plastic **\$15.00**

Needle Storage Containers

- CT7** Snap Top Needle Containers,
use in autoclave only, 100 pack **\$10.00**
- CT2** Snap Top Needle Containers,
sold individually **\$0.15**
- CT6** Blue Rack with 81 Containers,
for autoclave only **\$20.00**
- CT5** Mini Needle Bags, 2" X 2", 100 per/pack **\$6.50**
- GP12B** Mini Rack with 80 snap top containers **\$25.75**
- GP12D** Round White Container for needle storage
1/4 oz per dozen **\$6.00**
- GP12DDD** Round White Container for needle storage
1 oz per dozen **\$6.00**

Needle snap-top containers are perfect for sterilizing probes.

- GP12DDD** **\$6.00**
- GP12D** **\$6.00**
- CT7** 100pk **\$10.00**
- CT2** Each **\$0.15**

Wavicide

Effective, fast acting sterilizing and disinfecting solution for stainless steel/other equipment. Effective against HIV, safe for repeated use, low skin irritation. No activator required--high level disinfection in 45 minutes, sterilization in 10 hours. 30-day reuse time, No mixing. With a pleasant lemon scent.

DS22A	1 gallon	\$19.95
DS22B	1 quart	\$8.95

Sanitex Plus

Disinfectant cleaner that helps eliminate contamination of surfaces. Kills most bacteria, fungi and viruses, including Salmonella, Herpes and Staphylococcus--inactivates HIV in two seconds on hard, non-porous surfaces. Doesn't corrode plastic, rubber, steel, aluminum or brass & doesn't irritate skin, if used as directed.

DS22C	1 gallon	\$24.95
DS22CC	1 quart	\$12.50

MetriCide

2% Glutaraldehyde. Sterilant and high-level disinfectant for up to 28 days. Recommended for heat sensitive, immersible instruments. No dilution.

SS30	1 quart	\$7.50
------	---------	--------

Wavicide MEC Indicators take the guess work out of re-using Wavicide-01. Simply dip, wait and read, and the strip will indicate whether or not re-used Wavicide has a minimum glutaraldehyde level of 1.7%. A quick, convenient, cost-effective method of monitoring your disinfectant.

DS22BB	50 pack bottle	\$45.00
--------	----------------	---------

Citrus II

Citrus II Cleaner

Hospital-grade cleaner. Effective against tuberculosis, wide spectrum of antimicrobial activity without the use of harsh toxic chemicals or alcohol. Doesn't corrode, doesn't stain.

DS8G	22 oz. spray	\$5.25
DS8GG	Gallon Refill	\$22.59

Citrus II Air Freshener

100% natural odor eliminator. Destroys odor molecules on contact using pure, concentrated citrus extracts. Hypoallergenic, nontoxic. Comes in Citrus or Lemon.

DS8H	7 oz, original	\$6.50
DS8HH	7 oz, lemon	\$6.50

DisCide

DS8K	1 gallon	\$18.24
DS8J	1 quart	\$9.75
DS7F	ULTRA towelettes	\$9.00
	160 pack	

Disinfectant cleaners have a life of 30 days once poured into a separate container with a high shelf life in the original container.

Precise QTB

Cleans and disinfects in one step; no precleaning required. Intended for thorough cleaning and disinfecting of all types of hard, non-porous environmental surfaces and medical equipment. Low-toxicity formula is useful in a variety of settings including hospitals, nursing homes, veterinary clinics, and small animal facilities.

DS22D 32 oz, spray pump \$9.95
DS22DD 1 Gallon \$26.95

Mada Cide

Hospital-grade hard surface disinfectant and cleaner, kills Hepatitis "A", "B", & "C", MRSA, Canine Parvovirus, Mycobacterium TB, Poliovirus, HIV(Aids) plus Fungicidal. Safe and effective for use on inanimate surfaces.

UC2II 1gallon \$23.00
UC2III 1 quart \$9.69

Maxicide Plus

A 3.4% glutaraldehyde solution that can be used as a sterilant or high-level disinfectant for up to 28 days. 90 minutes at 77F (25C) for high-level disinfection. 10 hours at 77F (25C) for sterilization. Contains a surfactant to enhance the disinfection process and a rust inhibitor to reduce corrosion. No dilution required.

SS29A 1 quart \$8.00

Benz-All Concentrate

Germicidal instrument disinfectant with anti-rust factor; no need to add powders or tablets. Extreme wetting action with low surface tension. Economical; 40 cc concentrate makes one gallon. Convenient; disposable packages are small and easy to store. Odorless, non-staining.

TS24VV Benz-All Germicidal Concentrate, 40 cc (15 vials per package) - makes 15 gallons \$36.95

Medica DC 10

Medica DC 10 uses quaternary ammonium to achieve a 10 minute kill of TB, HIV, Hepatitis B and C, Polio drug resistant staph (MRE/VRSA) and canine parvo virus. Nontoxic, does not absorb through the skin and will not stain, damage instruments or hard surfaces. Can be used for immersion, as a surface spray or in an ultrasonic unit. No precleaning. Environmentally

friendly, no special handling required.
DS22M 1 gallon \$24.98

Ultronics UltraCare

Kills HIV-1, HBV and HCV plus 129 additional organisms, and is safe for plastics and metal. This surface disinfectant is effective in the presence of 98 percent organic soil and can also be used in Ultronics ultrasonic cleaners.

UL16 UltraCare Surface Disinfectant spray system \$8.99

Instrument cleaner concentrate, safe on all plastics, stainless steel and surfaces. Effective against HIV-1, Hepatitis B and C, SARS, and many others.

UC21B 16 oz, (makes 64 quart) 10 minutes \$19.95

UC21BB deodorizer concentrate, makes 32 quarts \$16.95

Versi-Wipes

Just add the solution of your choice to this dry towelette and create your own moist towelette, custom-made for your particular needs.

DS7J 160 tub \$6.25

Barbicide

Barbicide protects against Pseudomonas, Germicidal, fungicidal, Virucidal, HIV-1 on protected surfaces. Barbicide Plus protects the same viruses as Regular Barbicide and Tuberculocidal.

- DS8M** one pint **\$5.95**
DS8L one pint **\$18.50**
 (PLUS formula)
DS8N 1/2 Gallon **\$11.50**

Barbicide Jars

- DS8Q** Manicure table jar,
 Height 3" **\$6.00**
DS8R Midsize manicure jar,
 Height 8" **\$17.55**
DS8S Barbicide jar, Height 16"
\$20.50

Foams and Sprays

Precise Foaming Cleaner is one-step, fast acting. Use for quick cleanups, or to disinfect lamps stands, tables, carts, epilators, etc. Hospital-level disinfectant. Approximately 560 sprays per can.

- DS8D** 20 oz can **\$6.25**

Lysol IC Foaming Cleaner cleans and disinfects hard surfaces in one step, spray on. No harsh acids or bleach. Deactivates HIV in 10 minutes.

- DS7B** 24 oz **\$7.50**

- DS7D** Lysol Spray, 19 oz.
 spray can **\$11.50**

ProSpray

Hospital-grade disinfectant, non-alcohol, meant for environmental surfaces in healthcare facilities.

- 20 oz pump spray bottle
DS8B **\$8.99**

Opti-Cide 3

Ready to use, 3 minute contact time. Bacterial, virucidal, fungicidal and tuberculocidal. Surface and immersion solution.

- DS22P** 24 oz spray bottle **\$9.50**
DS22Q Gallon **\$21.50**

Sani-Cloth

A disposable wipe that cleans and disinfects with ease. Use on stainless steel, formica, glass and other hard surfaces. 55% alcohol, kills HIV-1, Herpes Simplex Type II, Influenza A2/Hong Kong and Rhinovirus in gram positive bacteria in five minutes or less, including TB, VRE, MRSA and E-Coli.

- DS7A** Sani-Cloth HB, 6" x 6.75",
 160 pack **\$8.00**
DS7AAA Super Sani-Cloth, 6" x
 6.75", 160 pack **\$9.00**

- DS7E** Wall Mount for **Sani-Cloth** or **DisCide** wipes
\$10.95

Solucide

An EPA registered, hospital strength hard surface cleaner, disinfectant, deodorizer and mildew stat. Effective virucide, tuberculocide, fungicide. No alcohol, no glutaraldehyde, no ortho-phenylphenol or any other phenolic compounds.

- DS22R** 16 oz. spray bottle **\$8.50**
DS22S 1 gallon bottle **\$21.50**

Medizime

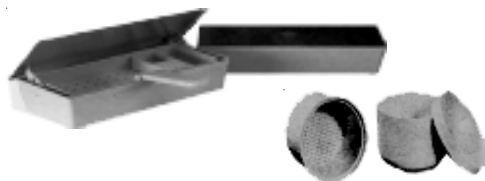

Concentrate low-foaming enzymatic detergent for use on medical instruments. Add packet to 1 gallon warm water. Rinse with warm water. Discard before 24 hours.

- UC18D** 1 oz concentrate packet **\$5.00**

Provon

Gentle antimicrobial soap, creates an amazingly gentle cleaning with a clean, fresh scent.

BC8 12 oz \$3.50

Sani-Sept

Gentle, non-drying antimicrobial hand soap. Contains Triclosan, Aloe Vera, Vitamin E, and positive bacteria to maximize skin protection.

DS5C 16 oz \$5.50

Sani-Hands Wipes

Gentle, effective and disposable, these wipes are perfect for cleaning hands between patients and when handwashing is impossible. Also good for cleaning vinyl surfaces. Contains the antimicrobial surgical scrub PCMX and alcohol. Formulated with Aloe Vera to help prevent dry skin and protect sensitive skin. Effective and safe alternative to alcohol based gels that provides

the friction necessary to remove dirt.

DS0 Tub of 135 \$7.50

Endure Gel

Endure 300 cida-rinse gel, health care personnel antiseptic hand rinse. 70% ethyl alcohol. Use when soap and water are not convenient, kills germs in 15 seconds.

DS1A 18 oz bottle w/ pump 11.95

Omni Care 7

Contains seven all-natural ingredients, gently cleanses without harsh chemicals. Aloe and Vitamin E condition skin and prevent problems associated with frequent washing.

DS6 1 gallon refill \$22.50

Bacti-Stat

Effective hand wash liquid with triclosan, which provides an excellent antibacterial activity against both gram negative bacteria and fungicidal and virucidal activities. The moisturizing Aloe Vera gel and conditioner lanolin leave hand feeling smooth and soft. Excellent for health care personnel in between patient contact.

DS1 18 oz \$9.50

Sterex Hand Cleanser

Antibacterial moisturizing hand cleanser, kind to the hands, PH balanced, soap-free. Contains Triclosan, destroys millions of germs.

DS12A 8 oz pump \$10.30
DS12B 16 oz refill \$12.80

Scrub Brush

DS19 Hand Scrub Brush \$2.50

Tincture Green Soap

Green soap is a good fat emulsifier that contains enough reserve alkalinity to make it effective in the removal of sebaceous secretions of the skin. Green Soap Tincture is often used in the preliminary preparation of operative sites. Primarily used against bodily fluids, but is mildly germicidal as well.

DS7 1 gallon **\$14.95**
DS7AA 1 pint **\$3.75**

Citrus II

Citrus II hand sanitizer kills all the most common illness-causing germs without water or towels. Leaves hands feeling clean and moisturized, never sticky. Great for professional or personal use.

DS17 4 oz, no rinse **\$2.25**

Other Hand Soaps
